Welcome to the Venture Vortex Beta Site, the newest online community for entrepreneurs and the venture capital industry! The Venture Vortex site is designed to help people dramatically compress the time it takes to plan, fund, staff and scale Internet ventures. Version 1.0 is currently being refined for launch in mid May 2000.

Educate, Execute and Interact. It's the entrepreneur's mantra and also our company mission. Use our Venture Roadmap™ to learn best practices and identify action items on the road to a robust start-up. Then interact with other Venture Builders in our Discussion Forums.

In the next few weeks we will add Web-based collaboration tools like the VentureBuilder™ tool set that powers your ability to recruit potential team members and strategic partners for your venture. View our Demo for more information.

We need your help to build the best possible community site. If you have suggestions about other "killer apps" for the entrepreneur of the future, please email us at killerapps@venture-vortex.com
